ABOUT US

Our company is the most integrated firm, which runs with the motto of using the immense power of Sun, to provide India wide solar energy. After minute and competitive market study of the solar power utility and demand in India, Our company was established in the year 2016, in Haryana and second unit was established in the year 2019, in Punjab with additional manufacturing capacity of more than 100MW, which has increased our annual manufacturing capacity to 150MW. We aim to provide the ultimate power of Sun to all parts of India.

We focus on quality & performance. We make sure that our products are effective in every possible sense. The solar modules are produced with Cutting Edge Technology, that makes them the best in terms of power generation.

Our team of Engineers are innovative & creative. The R&D department works continuously towards developing new and effective products.

Our company is a part of SUN N SAND EXIM GROUP of companies which is a well known brand in the field of decorative construction material & Pre-Press business.

5wp to 380wp

PID and snail trails free

Excellent performance under low irradiance

Additional Environmental tested for salt mist/ammonia/sand. Ensure performance in harsh environment

Power tolerance 0~+5w Guaranteed power output

Additional yield and easy maintenance with high transparent self cleaning glass

2 times EL testing during Manufacturing, defect-free modules.

Industry leading module power output warranty.

International quality, safety and performance certifications

Manufacturing facility certified to ISO9001 quality management system standards

Beautiful appearance, good durability & easy installation

Special design in accordance with requirement of customers

Turnkey EPC and O&M Services

Our company is one of the leading commercial, industrial and utility solar EPC provider. We believe in making the complex powerfully simple-from system design to customer service, we undertake turnkey projects. Our company offers the peace of mind that accompany cutting-edge technology, innovative design and industry-leading warranties. Our integrated, cross-functional and In-house design and engineering team provide an all-inclusive approach to develop and manage solar projects. Our integrated approach has allowed us to generate efficiencies of scale that further drive down system costs.
